

# Aircraft Design Project Rules

1. Student caught on cheating fails projects.
2. Students must talk in English during the project lessons and consultations.
3. Previous projects, also from Aircraft Design 1, are prerequisite for the currently checked project.
4. If student gives more than one project to check and previous project contains errors next projects aren't checked.
5. 0 points from any project is equal to failing projects.
6. If project gets zero points because of lack of previous project or mistakes in the previous project rule 5 still applies.
7. Student has 1 week without points penalty to make corrections in the checked project. If corrections are not done project is treated as never seen before.
8. Student has right to make few corrections week by week without points penalty.
9. Final version of projects must be delivered in paper form and personally (not by mail, not by email).
10. Consultations are not for projects checking.
11. Quality of the project is part of the mark.
12. At the end of the semester, you must submit an electronic copy of all projects for an archive purpose otherwise your marks is not going to be enter to the system
